PLASTICAP-60™

NEAR INFRARED (NIR) SCREWCAPS

OVERVIEW

- ✓ Manufactured with NIR detectable black colorants instead of carbon black pigments, the Plasticap-60™ screwcap enables black materials to be harvested for reuse and recycle
- ✓ This tamper-evident Plasticap-60™ screwcap is made from High Density PE (HDPE) with an integrated expanded PE sealing washer
- ✓ Designed to meet or exceed the rigorous performance requirements established by the UN, the Plasticap-60™ closure system provides the highest protection levels for hazardous or expensive contents
- ✓ Specialists are available to provide technical expertise on our recommended DIN 60 neck finish specification, as well as application and removal tooling to ensure proper fitting of the screwcap

- All applicable materials and components comply with FDA requirements for food packaging
- Products are manufactured in compliance with the requirements of Food Safety Certification 22000
- Additional Declarations of Regulatory Compliance are available on request
