

For fiber and plastic containers

BOA BAND™ RINGS

The Tri-Sure® BOA BAND™ rings are used for sealing open head containers.

The smooth design allows for easy cleaning.

Tools are not needed for application or removal. They bring practicality for containers that need to be rapidly opened, making contents easily accessible.

MORE THAN CLOSURES

BoaBand™

Design

The Tri-Sure® BOA BAND™ rings are available in wide range of sizes and profiles. Made completely out of plastic, BOA BAND™ rings are safe and clean with no sharp edges.

The Tri-Sure® BOA BAND™ rings' smooth contour allows easy cleaning and the closed pivot geometry prevents dirt ingress.

Traceability

The BOA BAND™ lock bands are completely traceable by production date, a crucial element for a great quality ensuring program.

Application

The lever and band are sold pre-assembled and can easily be placed on the drum without the use of any tools.

Cover & Closing Ring System

Tri-Sure® can also supply covers assembled with the corresponding plastic closing-ring, thus reducing handling, complexity and labor costs during the filling process.

FDA compatible Material

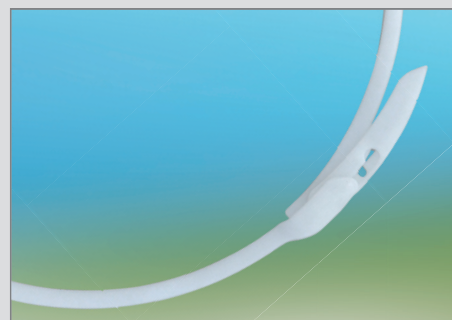

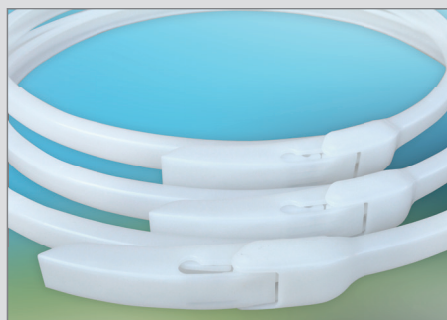

Natural High Molecular Weight HDPE is the standard raw material and it is FDA approved. For other colors please contact your local Tri-Sure® representative.

Truly global

Combined with Tri-Sure® More Than Closures global network of sales and service centers, technical support and tooling, the Tri-Sure® BOA BAND is the first choice for customers who demand the highest quality, especially those dealing with hazardous contents.

Advantages

- ✓ No tools required
- ✓ Completely traceable by production lot number
- ✓ Closed pivot geometry prevents dirt ingress
- ✓ Smooth contour allows easy cleaning
