& G^{3/4} PUSH-LOCK™
CAP COMPATIBLE
PLASTIPLUG™**

**G^{3/4} Push-Lock™ plastic
Push-Lock™**, the all-plastic
tamper-evident drum closure is
designed to directly lock onto
our Push-Lock™ compatible
PLASTIPLUG™ without
needing a crimping tool.
With a convenient tab/pull ring
system, the removal of the cap
is just as easy!

Tri-Sure®
MORE THAN CLOSURES

G³/₄ PUSH-LOCK™ CAP & G³/₄ PUSH-LOCK™ CAP COMPATIBLE PLASTIPLUG™

Design

The all plastic G³/₄ Push-Lock™ cap means no rust and no sharp edges. The cap locks directly onto the Plastiplug™ enabling the Push-Lock™ cap to accommodate varying drum neck profiles. This is because it relies completely on the precision fit of the injection molded cap and plug.

The G³/₄ Push-Lock™ compatible Plastiplug™ is designed with a retention lip on the outside diameter for the Push-Lock™ cap to grip onto.

Function

The Push-Lock™ cap™ & Plastiplug™ system ensures protection against pilferage or substitution of the drum's content.

Safe and easy application/removal

The all-plastic Push-Lock™ cap takes "Easy on / Easy off" to a new level. No tools of any kind are required. The Push-Lock™ caps are efficiently and securely pushed onto the plug by hand. This system ensures protection against pilferage or substitution of the drum's contents. Pushed-on Push-Lock™ caps can be effortlessly and conveniently removed by hand.

Colors & Specialty Applications

Other color options as well as custom printed private designs are available and subject to minimum order quantities. We can comply to Food Safe application requirements.

Truly global

Combined with Tri-Sure® More Than Closures global network of sales and service centers, technical support and tooling, the Tri-Sure® G³/₄ Push-Lock™ Cap is the first choice for customers who demand the highest quality products.

Advantages

- ✓ Prevents dirt ingress and contamination
- ✓ Easy application & removal
- ✓ Completely traceable by production date
- ✓ Protects against pilferage
- ✓ Printable and tamper evident
- ✓ Food Safe applications available
