

For metal containers

SAMBACAP™ CAPS

SambaCap™, the all-plastic drum closure overcap designed to protect the Tri-Sure® closure system from dirt, contamination and pilferage or substitution of the drum contents.

Tri-Sure®
MORE THAN CLOSURES

SambaCap™

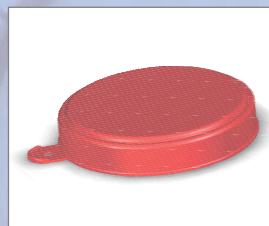

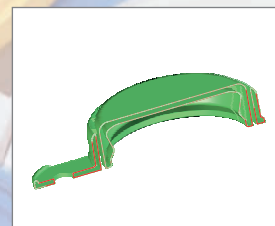

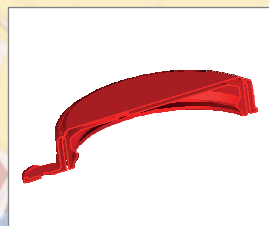

Easy tool-free application

The all-plastic SambaCap™ takes "Easy on / Easy off" to a new level. No tools of any kind are required. The SambaCap™ caps are efficiently and securely applied over the Tri-Sure® closure by hand and provide protection against pilferage or substitution of the drum's contents.

Safe and easy removal

SambaCap™ caps can be effortlessly and, once applied, conveniently removed by hand.

Available in the G2 and G3/4 sizes, the SambaCap™ plastic cap is complementary to the Tri-Sure® metal closure system.

EASY ON

→ Filling Line Efficiency

EASY OFF

→ Customer Convenience

Color options

- Manufactured from PE, the standard SambaCap™ cap is supplied in either natural or white color.
- Subject to minimum order quantities a full array of colors and custom designs is available.
- The SambaCap™ can also be printed with your company logo or message about the drum contents.

Advantages

- ✓ Prevents dirt ingress and contamination.
- ✓ Good alternative to metal caps.
- ✓ The product is all-plastic; meaning no rust and no sharp edges.
- ✓ Easy push-on by hand, no tools required for the application of the cap.
- ✓ Easy and ergonomic removal of the cap, pull-off by hand, no tools required and product stays in one piece.
- ✓ Pleasing to the eye, printable and relatively tamper-evident.
