

OPEN HEAD STEEL DRUM GASKETS

**Global sealing confidence.
Delivered consistently.**

Our premium-quality gaskets deliver the consistent performance and supply reliability your operations depend on. Designed for solid and liquid filling applications, they provide reliable sealing, help prevent contamination, and protect product integrity.

ENGINEERED TO DELIVER WHAT MATTERS

GLOBAL LEADERSHIP

Decades of expertise in industrial packaging closure and sealing systems with a worldwide presence.

GASKET MATERIAL OPTIONS

Available in EPDM, Black Nitrile, White Nitrile and FKM for reliable sealing across a wide range of applications.

GLOBAL SUPPLY

Manufacturing and supply network across key regions to support your operations with stability and continuity.

SAFE STORAGE AND TRANSPORT

Drums are widely used across industries to store and transport valuable products. Tri-Sure gaskets creates the proper sealing performance.

CONSISTENT QUALITY

Robust quality systems and process control delivering reliable performance you can count on. Prevent contamination.

OUTPERFORM BY DESIGN

Designed as a single, continuous ring to provide a uniform sealing interface around the entire circumference.

GLOBAL EXPERTISE. LOCAL COMMITMENT.

One global standard. Reliable quality. Secure supply. Wherever you operate, Tri-Sure is your trusted sealing partner.

KEY BENEFITS

Reliable sealing and leakage protection. Low density & lightweight

Global footprint and stable supply chain for drums

Global standardization and UN-compliant solutions

Local support, global expertise. FDA compliance

DESIGNED FOR

SOLID & LIQUID FILLING | 20 TO 210LTS DRUMS | REUSABLE PACKAGING | WEATHER & OZONE RESISTANT

CUSTOMIZED AND PREMIUM SOLUTIONS

FDA COMPLIANCE | UN APPLICATION | TEMPERATURE VARIANCE | COMPRESSION RECOVERY
