For plastic containers

PLASTICAP-70™ SCREWCAP

Plasticap-70™ is the universal and cost-effective closure system for high-demand UN applications and is designed for optimal sealing and security of small and medium-sized plastic containers.

PLASTICAP-70™

Our Tri-Sure® family of Plasticap-70™ screwcaps offers full product traceability in compliance with the rigorous FSSC 22000 standard.

How does it protect?

The Plasticap-70™ screwcap is made from FDA compliant High Density PE (HDPE) material with a standard EPDM sealing washer, and optional tamper evident-ring.

Ensuring Ease of Use

The Tri-Sure® Plasticap-70™ screwcap has been designed as a plug & play replacement to work on existing container necks & automated filling lines, and work with existing application and removal tooling. No changeovers are required to begin sourcing our product today.

UN Performance Rating

The Tri-Sure® family of Plasticap-70™ screwcaps may be qualified by testing for use on UN rated containers and are suitable for UN packaging groups II and III. The Plasticap-70™ ensures safety under extreme conditions.

Customer Support

Our knowledgeable Customer Service Team is available to assist. We measure, review, and react to our Customer Service Performance continuously, and strive to be the best performing Customer Service Company in Industrial Packaging.

Technical Service

As expected of a world leader in industrial closure systems, we provide a complete system to support application and removal of Plasticap-70™ screwcaps. Our Plasticap-70™ screwcap has been designed to work with the tooling that already exists in the market. Plastic & aluminum manual wrenches, as well as aluminum 70mm sockets are available. Technical assistance, including the development of special tooling, can be provided for automatic filling line applications. Our technical staff can also offer practical advice on upgrading your current container with the Plasticap-70™ screwcap.

Global Supply

As a company with 9 global manufacturing facilities, we are committed to providing a reliable supply chain with competitive lead times.

All Tri-Sure® Plasticap-70™ closures are designed for optimal performance in combination with existing 70mm container necks that are already in the market.

Features Available

- Optional tamper evident-ring
- Optional ¾" threaded reducer
- Optional microporous vent
- Optional logo/design printing
- Optional screwcap colors
- 6TPI or 8TPI

Quality Management

- Food safety certified product through FSSC 22000 recognized by GFSI
- ISO 9001:2015
- FDA compliant material
